Bob ,

I just wanted to thank you for the time invested Saturday sharing your knowledge with Patti and I . This was the first opportunity I had to hear you speak for an extended period of time in a training class . We have attended many programs and have tried to educate ourselves this past year to venture into a passion we both strive to be successful at . I learned more from you this past Saturday versus any instructor or program we have invested time and money with . We have met many wonderful people in the Real Estate field with the courses and classes we have attended. Many of the investors we have signed up to listen to have different views and ways of going about how they achieve success in this field . However the two areas in which everyone expressed to us being the most important was to join and be apart of your Local REI. The second was to find a Mentor who was experienced and a trusted advisor to help guide us as we try to learn this field that is so new to us . I hope in the future we have the opportunity to hear you speak again and wanted you to know how thankful and appreciative we are to have had that opportunity to be a part of it.

Sincerely,  
Karl Mack
